

Getting Magnetized: Search and Service Strategies for Nursing Excellence

Friday, June 29, 2007

9:00 a.m. – 4:30 p.m.

Kirstein Living Room, Beth Israel Deaconess Medical Center, Boston

What's the class?

Evidence-based practice is a core value for the ANCC Magnet Initiative and a goal for nursing reform, from curriculum development to clinical practice. **If your hospital already has Magnet status, more will be expected next time you go through the process.** The course will help nurses and librarians in hospital and academic settings establish collaborative interdisciplinary relationships to implement evidence-based practice initiatives.

- Learn efficient methods for finding resources for evidence-based nursing practice via the Internet, CINAHL and MEDLINE.
- Identify collaborative education and service strategies to improve knowledge-based information services for nurses in clinical and academic settings.
- Evaluate point-of-care resources such as Nursing Consult and DynaMed for interdisciplinary practice.

Who should attend?

- Nurse Administrators working on their ANCC Magnet application or renewal
- Nursing Faculty
- Health Sciences Librarians

Who's the presenter?

Peg Allen, MLS, AHIP, has more than 30 years experience working with health information and currently serves as Library/Information Consultant for CINAHL Information Systems. She is the coordinator for the Hmong Health Education Network, a project funded by the National Library of Medicine to provide health, education and social services to the Southeast Asian community in Marathon County, Wisconsin. An internationally recognized expert on nursing information resources, Peg has presented at numerous nursing and librarian conferences and symposia. Check www.pegallen.net for links to presentations.
